REMEDIAL BRANCH
(6SF-R)

RE: Concurrence on Record of Decision for the Griggs and Walnut Ground Water Plume
Superfund Site, Las Cruces, New Mexico, EPA CERCLIS ID #NM0002271286

Dear Mr. Coleman, *Sam*

The New Mexico Environment Department (NMED) has reviewed the United States Environmental Protection Agency's (EPA) Draft Record of Decision (ROD) for the Griggs and Walnut Ground Water Plume Superfund Site located in Las Cruces, New Mexico.

NMED concurs with the remedial actions outlined in the draft ROD to address ground water contamination associated with this Site. The selected remedy **Enhanced Ground Water Extraction with Treatment** includes treatment of ground water and hydraulic control relying, to the extent possible, on existing City of Las Cruces municipal wells. Additionally, the remedy will be supported by interim institutional controls, long-term monitoring, and annual reviews and reporting.

Concurrence with the ROD is based on the facts presented in the draft ROD (dated May 24, 2007) and on available data collected to date. NMED understands that any changes to the selected remedy and ROD will require NMED's concurrence. Therefore, as in the past, NMED requests that EPA continue to work closely with NMED project staff on design and implementation of the remedy. NMED also understands that any new information associated with this site, including adverse health risks or data regarding the extent of contamination and migration of contaminants, identified during subsequent design investigations and not presented in this draft ROD will be addressed by EPA as part of this Superfund site.

Mr. Coleman
Page 2 of 2
May 29, 2007

The plan is a culmination of work conducted by the EPA, the City of Las Cruces, Dona Ana County, and NMED. NMED appreciates the continued supportive working relationship with EPA in these matters. If you have any questions, please call me at (505) 827-2855, or Sabino Rivera of my staff at (505) 827-0387.

Sincerely,

Ron Cherry
Secretary

Re: Letter of Concurrence on the Selected Remedy in EPA's Proposed Plan for the Griggs and Walnut Groundwater Plume Site, Las Cruces, NM, November 2006

Dear Ms. Sanchez:

The Joint Superfund Project with authority from the Amended Memorandum of Understanding signed by Terrence Moore, City Manager, and Brian Haines, County Manager, (effective as of October 2, 2006) concurs with the selection of Enhanced Groundwater Extraction with Treatment (Alternative 4) as the proposed remedy. The JSP Team also agrees with air stripping as the preferred treatment technology to remove PCE, with the understanding that the final treatment process will be determined during the Remedial Design phase of the remediation.

Please contact Dan Santantonio, JSP Manager, if you have questions, or need additional information regarding this matter.

Sincerely,

Jorge Garcia, PhD, PE
JSP Director
for City of Las Cruces

PREAMBLE

The purpose of this document is to provide the public with an index to the Administrative Record File (AR File) for the U.S. Environmental Protection Agency's (EPA) selected remedial action to respond to conditions at the Griggs & Walnut Ground Water Plume Superfund site (the "Site"). EPA's action is authorized by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. Section 9601 et seq.

Section 113 (j)(1) of CERCLA, 42 U.S.C. Section 9613 (j)(1), provides that judicial review of the adequacy of a CERCLA response action shall be limited to the Administrative Record (AR). Section 113 (k)(1) of CERCLA, 42 U.S.C. Section 9613 (k)(1), requires the EPA to establish an AR upon which it shall base the selection of its remedial actions. As the EPA decides what to do at the site of a release of hazardous substances, it compiles documents concerning the site and its decision into an "AR File." This means that documents may be added to the AR File from time to time. After the EPA Regional Administrator or the Administrator's delegate signs the Action Memorandum or the Record of Decision memorializing the selection of the action, the documents which form the basis for the selection of the response action are then known as the Administrative Record "AR."

Section 113(k)(1) of CERCLA requires the EPA to make the AR File available to the public at or near the site of the response action. Accordingly, the EPA has established a repository where the AR File may be reviewed near the Site at:

Thomas Branigan Memorial Library
200 E. Picacho Ave.
Las Cruces, NM 88001
Telephone: (505) 528-4005

The public also may review the AR File at the EPA Region 6 office in Dallas, Texas, by contacting the Remedial Project Manager at the address listed below. The AR File is available for public review during normal business hours. The AR File is treated as a non-circulating reference document. Any document in the AR File may be photocopied according to the procedures used at the repository or at the EPA Region 6 office. This index and the AR File were compiled in accordance with the EPA's Final Guidance on Administrative Records for Selecting CERCLA Response Actions, Office of Solid Waste and Emergency Response (OSWER) Directive Number 9833.3A1 (December 3, 1990).

Documents listed as bibliographic sources for other documents in the AR File might not be listed separately in the index. Where a document is listed in the index but not located among the documents which the EPA has made available in the repository, the EPA may, upon request, include the document in the repository or make the document available for review at an alternate location. This applies to documents such as verified sampling data, chain of custody forms, guidance and policy documents, as well as voluminous site-specific reports. It does not apply to documents in EPA's confidential file. (Copies of guidance documents also can be obtained by calling the RCRA/Superfund/Title 3 Hotline at (800) 424-9346.)

These requests should be addressed to:

Petra Sanchez
Remedial Project Manager (6SF-RL)
U.S. EPA Region 6
1445 Ross Avenue
Dallas, Texas 75202-2733
(214) 665-6686

The EPA response selection guidance compendium index has not been updated since March 22, 1991 (see CERCLA Administrative Records: First Update of the Compendium of Documents Used for Selecting CERCLA Response Actions [March 22, 1991]); accordingly, it is not included here. Moreover, based on resource considerations, the Region 6 Superfund Division Director has decided not to maintain a Region 6 compendium of response selection guidance. Instead, consistent with 40 CFR Section 300.805(a)(2) and 300.810(a)(2) and OSWER Directive No. 9833.3A-1 (page 37), the AR File Index includes listings of all guidance documents which may form a basis for the selection of the response action in question.

The documents included in the AR File index are arranged predominantly in chronological order. The AR File index helps locate and retrieve documents in the file. It also provides an overview of the response action history. The index includes the following information for each document:

- **Doc ID**- The document identifier number.
- **Date** - The date the document was published and/or released. "01/01/2525" means no date was recorded.
- **Pages** - Total number of printed pages in the document, including attachments.
- **Title** - Descriptive heading of the document.
- **Document Type** - General identification, (e.g. correspondence, Remedial Investigation Report, Record of Decision.)
- **Author** - Name of originator, and the name of the organization that the author is affiliated with. If either the originator name or the organization name is not identified, then the field is captured with the letters "N/A".
- **Addressee**- Name and affiliation of the addressee. If either the originator name or the organization name is not identified, then the field is captured with the letters "N/A".
