Doña Ana County Animal Control & Codes

The purpose of this A.C.E.S. project is to improve this community by education. Doña Ana County Officers go door to door to various areas/streets to educate citizens on taking care of solid waste, inoperable vehicles, burning, and animal welfare issues. Improvement can be achieved by instilling pride thru plot leaders, neighborhood associations and volunteers. We also encourage the public to discuss ways to bring pride into your community. A bond can be made by neighbors to improve the quality of life in your community. *Become a Community Leader!!!*
