

***DONA ANA COUNTY PURCHASING DEPARTMENT
PROCUREMENT DETERMINATION***

TO: Procurement File	DATE: 2/9/2021
FROM: Donald E. Bullard, Purchasing Manager	<i>DB</i>
SUBJECT: Sole Source Procurement Determination	

Section 13-1-126 NMSA 1978 states in pertinent part that "A. A contract may be awarded without competitive sealed bids or competitive sealed proposals regardless of the estimated cost when the state purchasing agent or a central purchasing office determines, in writing, that:

- (1) there is only one source for the required service, construction or item of tangible personal property;
- (2) the service, construction or item of tangible personal property is unique and this uniqueness is substantially related to the intended purpose of the contract; and
- (3) other similar services, construction or items of tangible personal property cannot meet the intended purpose of the contract.

B. The state purchasing agent or a central purchasing office shall use due diligence in determining the basis for the sole source procurement, including reviewing available sources and consulting the using agency, and shall include its written determination in the procurement file."

The Purchasing Department has:

- Reviewed the justification submitted to this office;
- Reviewed the steps taken by the User Department in "conducting a good-faith review of available sources";
- Reviewed the Vendor's Sole Source letter;
- Conducted research on other firms offering similar products.

The County's Certified Chief Procurement Officer, after reviewing the Department's Sole Source Justification Form, researching the internet and reviewing the Vendor's Sole Source letter has determined that Barkhouse is the sole source provider of Spaying/neutering of felines/canines at low to no cost; microchipping; rescue by relocation of adoptable dogs and cats impounded by the county/relinquished by owners. This sole source request was posted on the County's website on 2/9/2021.

“SOLE SOURCE” PROCUREMENT JUSTIFICATION

Sole source purchases are goods and services available from only one vendor. There may be just one vendor because of patents or copyrights or simply because the vendor is the only one which supplies the good or service. Using Department must provide a written explanation as to why only this particular product/service is acceptable and why no other will be suitable or acceptable to meet the need. A quote must accompany this form.

Department Name: Dona Ana County Animal Control and Environmental Codes

1. **Name of Product or Service:** Spaying/neutering of felines/canines at low to no cost: microchipping: rescue by relocation of adoptable dogs and cats impounded by the county/relinquished by owners
2. **Name of product manufacturer:** this would be a service contract
3. **Name of “sole” product supplier or service provider:** Barkhouse
4. **Describe in general terms the product/service you are requesting and the intended application:** This sole source, a 501(c)(3) foundation, will operate in four (4) different arenas:
 - a. Low to no cost spaying and neutering of county abandoned/relinquished dogs and cats (hereintofore “county animals”) and household pets of Dona Ana County residents.
 - b. Low to no cost microchipping of all county animals and household pets in conjunction with neutering services and community events.
 - c. Rescue through relocation to geographical areas on need of adoptable dogs and cats
 - d. Spaying/neutering of adult female dogs and cats post-litter, and group rescue by relocation of the entire litter for adoption or fostering pending adoption. This program is alternately known as the Last Litter Program.
5. **Describe the unique features/capabilities/characteristics that distinguish it from other products/services:**

One of the County’s priority action items for this fiscal year and next is to reduce the number of animals impounded at the Shelter by reducing the stray/abandoned/unwanted animal population. The main way to accomplish this goal is to have an aggressive spay/neuter program, viable up-to-date microchipping data, and as a last resort, the rescue by relocation of adoptable animals.

No other rescue agency, animal advocacy group, or spay/neuter group in New Mexico offers this range or depth of services. Their roles typically involve just one of the functions listed above (4a, 4b, or 4c) and **no agency or group in New Mexico offers services involving 4d.**

Barkhouse is able to offer the County and its residents a reduced rate for spay and neuter, resulting in immense cost-savings over the course of a contract. Barkhouse will have its own veterinarian, and perform surgeries on-site.

Compare the cost associated with the neutering of 100 dogs:

Barkhouse: \$9000 SNAP: \$13,400 Private veterinarians: \$25,000 (low estimate)

SNAP does not differentiate neutering costs of dogs vs. cats. Barkhouse provides a lesser fee for cats (\$60). Again, there is a significant cost saving to the County.

SNAP does not become involved in adoptions/rescue, and does not attend to abandoned/stray/relinquished animals, while Barkhouse's model is to attend to all county animals.

The Action Programs for Animals group does not involve neutering services at this rate (if at all), and focuses on local adoptions. Barkhouse involves the rescue through relocation model, which relocates adoptable animals to areas requesting them. Barkhouse serves as a relocater service and liaison to Oregon, Washington, Idaho, Colorado, and California.

Barkhouse has national partners to assist in the rescue through relocation program, including but not limited to South Aero, Dog Is My Copilot, and Pet Rescue Pilots. No other group in New Mexico has these connections; in fact, private fosters and animal advocacy groups work through Barkhouse to relocate adoptable animals. This program has been nationally recognized in numerous animal welfare publications as well as receiving local media attention through KVIA and the Las Cruces Bulletin.

6. **How did you determine that there was only one source for the product or service? Provide information on the research that was performed to locate suppliers of for this product(s) or services(s). Please furnish names, addresses, and other documentation).**

Knowledge of local rescue groups was obtained through professional interactions as a course of ordinary business. As early as May 2020, attempts were made to contact local sources for information and assistance. At the time, the County was awarded ownership/possession of a pack of terriers that the Court had declared public nuisances. Numerous attempts were made to send these animals for adoption referrals, with placement at the Shelter being a last resort. Invariably, the County was told that no such services exist except for the interventions of Barkhouse (known at that time as Uncaged Paws) or that alternatives were overbooked with a high population.

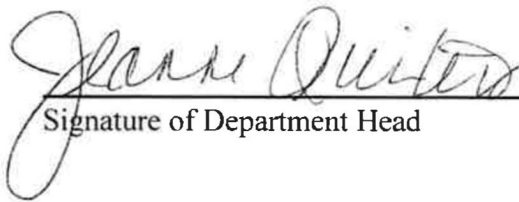

Specific contacts were made to:

- a. Action Programs for Animals: (575) 571-4654 This program does not participate in spaying/neutering programs.
- b. Diane Avery: reachable through Facebook at Dian Avery: Ms. Avery coordinates fostering activities on a large scale, but does not participate in spaying/neutering programs. She is a private citizen who works with Barkhouse when there are eligible animals for relocation.
- c. SNAP New Mexico: (575) 524-9265 SNAP provides spaying/neutering as well as microchipping. They are not in the adoption or relocation arena, and further, only provide services to household pets (not abandoned/unclaimed/relinquished animals).
- d. Humane Society of Southern New Mexico (575) 647-1416 or 523-8020 HSSNM provides only microchipping and adoptions.
- e. Lap Dog Rescue of New Mexico (505) 934-2202: Although based in Tijeras NM, this agency has a strong following in southern New Mexico. They are limited to adoptions, and to dogs weighing less than 25 pounds.

In sum, no local or affiliated groups offer the range of services that Barkhouse offers to both household pets and county animals.

7. What product supplier or service provider has your Department used until now to satisfy similar requirements?

Currently, the County has a contract with SNAP New Mexico. However, it only covers paying/neutering and microchipping of household pets, and charges a higher fee than what Barkhouse would bill for spaying/neutering. SNAP does not service county dogs. Further, the service is often put off for 6-8 weeks because it is contingent upon a private veterinarian's schedule. It is anticipated that a contract with Barkhouse would result in the termination of the SNAP contract.

BarkWorks Inc | 2021

Barkhouse Transport Logistics System

A comprehensive solution to pet overpopulation using state of the art Barkhouse standards, technology and innovative transport programs.

OUR COMPANY

MISSION AND VISION

Our Mission is to provide a statewide solution for pet overpopulation benefiting all at risk communities in New Mexico.

Our solution includes an integrated relocation service of air and ground transportation for animals in danger of being euthanized in the overcrowded, under funded NM shelter system.

The magic of our solution includes adoptable pets surrendered via our Transport Hub where we get them ready for a successful outcome to high quality receivers where adopters are waiting.

BarkWorks Inc / 2021

OUR SUCCESS FORMULA

WHY WE ARE THE SOLUTION

Since 2015, Barkhouse, formerly Uncaged Paws Inc. a 501c3 nonprofit has successfully transported over 4800 New Mexico dogs and cats to verified, quality Receivers in Northwest states where pets are in demand for adoption. Generally our transferred pets have 20+ applications and are adopted within 5 days of transport.

BALANCING SUPPLY & DEMAND

Dona Ana County, the 2nd largest county in NM, has entered into a working relationship with Barkhouse and provided their court hold facility as a TRANSPORT HUB for holding and staging animals for outbound transport.

As part of our working relationship, a Spay/Neuter facility will commence operating. The services will be subsidized through the receipt funding of Senate Bill 57 (Pet Food Registration Fees) and communities who opt in to the network will receive additional discounted service fees and access for their residents. Our mission is capping pet population through proactive sterilization and minimizing euthanization of healthy surplus animals that will be transported out of NM, thereby saving lives and financial resources to the communities.

BarkWorks Inc | 2021

WHERE WE'RE HEADED...

HUMANE SOLUTIONS FOR PET POPULATIONS

BRINGING ALL NEW MEXICO COMMUNITIES TOGETHER TO SAVE LIVES

NM has 25% of their population living in poverty and most of the communities have high stray/discarded pet populations and shelters which are "warehouses" for lack of adoption demand. Our model establishes a membership based community program for New Mexico. Each invited community will be given the opportunity, through annual membership, to be part of the solution to pet overpopulation. As a member of the **Barkhouse NM Coalition**, these communities are granted the opportunity to submit their unwanted, but adoptable animals to our transport hub where we will transfer them to locations where they will be adopted to loving homes, rather than utilizing taxpayer dollars for euthanasia as a solution.

BarkWorks Inc | 2021

LOGISTICS TRANSPORT PROGRAM

NM has extensive land mass and vast geographical challenges. Having a RIDE out of NM is at the core of saving lives. Therefore, this program is a key component in the solution of reducing pet overpopulation in New Mexico. Using our strategically designed logistical system we are able to manage and maintain transports.

VIA:

- **Barkhouse DIRECT: Ground and Air Transports**
- **Flight School Relay Program**
- **Long distance flight contracts with Dog Is My Co-Pilot, Pet Rescue Pilots, and Pilots With Purpose**
- **NM Shuttle Plane Acquisition to assemble intake at HUB.**
- **Community Outreach Transport Membership**
- **Proprietary Transport Logistics Software**

HOW WE CAN HELP

PARTNERING WITH DONA ANA COUNTY TO BRING UNITY AND QUALIFIED MANAGEMENT AND SOLUTIONS FOR PET OVERPOPULATION

- High Quality Standards
- Professional Staffing
- On Staff Veterinarian
- Low Cost Spay/Neuter
- Microchip/Vaccination
- Last Litter Program
- Volunteer/Foster Network
- HUB Facility (Griggs)
- Air/Ground Transport Programs
- Logistical Transport Software
- Fundraising
- Community Awareness Programs

ONGOING PARTNERSHIP DEVELOPMENT

WE CAN'T DO IT ALONE

Building strong relationships with organizations who share our mission and vision is our goal.

- National Pilot Training Schools
- National Pet Rescue Organizations
- Local Community Animal Rescue Organizations
- Receiving Organizations
- State/City/County officials and organizations

SOLE SOURCE PROPOSAL

Barkhouse.Org is the nonprofit 27-0464370 originally incorporated in May, 2010 as Uncaged Paws.

Barkhouse.Org is contracted to (Barkworks) Productions, Inc.

Barkworks, as a management company designs, develops and implements "solutions to proactively address pet overpopulation" in communities.

Barkhouse manages those solutions and has hands on responsibility for achieving targeted outcomes.

BARKHOUSE COMMITMENTS

4 Month Proposal \$180,000

- Dona Ana County mobile spay/neuter vehicle is being supplied for SN surgery. Unit will be located at 1950 E. Griggs for the pilot period. County will prep the mobile unit by March 15 for use in accordance with direction from Dr. Lauren Short, DVM (dba Zia Mobile Medical).
- At the recommendation of Dr Short, the building will NOT be used for surgery nor pre/post op recovery. County to propose additional structures (shipping container, tent, etc)
- Submission of sole source SN contract for review and execution by Barkworks/Barkhouse.
- 4 month Spay/Neuter contract with the Dona Ana County will be executed in March, 2021 to include Veterinarian Dr. Lauren Short for spay/neuter services and Barkhouse's proposal for setup and operating expenses (scheduling, software, staffing, policies, transport logistics, community outreach, live programming, management, marketing and public relations including sponsoring full time Vet from Argentina to Las Cruces via a work visa)
- Spay/Neuter will be performed 2 days per week (by Zia Mobile Clinic, LLC) and appointments and scheduling managed by Barkhouse.
- The contract will be revisited June 30 with different parameters to switch from using Zia Mobile Medical to the Barkhouse Vet establishing a unit cost per surgery.
- Zia Mobile Vet, LLC will become a DAC vendor and receive direct payment of \$9,000.00 per week from start up till termination of pilot period.
